ABOUT ME

Java Developer

Over **3.5 years** of experience in software development using Java:

- Specialized in coding and implementing Web based applications based on Spring Boot and Microservices and good exposure to other web technologies.
- Good understanding of development using REST Services and Kafka.
- Good interpersonal skills with an ability to interact with individuals at all levels.
- Experience in two domains- Healthcare and telecom.

EDUCATION

Bachelor of Engineering (Computer Science)
Medi-Caps University, Indore, Madhya Pradesh — Completed, May 2022

Intermediate
Annie Besant School, Indore, Madhya Pradesh — Completed, April 2018

High School
New Digamber Public School, CBSE, Madhya Pradesh — Completed, April 2016

WORK EXPERIENCE

Tata Consultancy Services (Systems Engineer): June 2022 – Present
Indore, Madhya Pradesh

Working as Java Developer, majorly involved in Healthcare and Telecom Domains.
Clients: United Health Care (Optum) & Verizon Wireless

PROJECTS

Project: United Health Group (Optum)
Period: August 2024 - Present
Role: Java Developer
Responsibilities:

- Spearheaded development of a secure Spring Boot-based web application, integrating 6+ microservices to streamline healthcare claim processing and insurance workflows.
- Designed and optimized RESTful APIs for reliable medical claim attachment handling, enabling high-throughput processing of 1GB+ claim files across multiple formats.
- Implemented Spring Core, and Spring Boot to deliver modular, scalable, and maintainable microservices architecture.
- Leading migration of healthcare file storage from Kubernetes PVC to AWS S3, applying lifecycle policies for cost-efficiency, scalability, and compliance with sensitive data retention requirements.
- Deployed and orchestrated applications using Docker and Kubernetes, ensuring seamless scalability, fault tolerance, and high availability in production.
- Integrated Splunk logging, custom alerts, and proactive monitoring across microservices, enabling faster issue resolution and enhanced system observability.

- Collaborated with cross-functional teams to translate business requirements into technical specifications, accelerating delivery in Agile/Scrum cycles with a lean team of 2 developers.
- Directed production deployments and client communications, contributing to a near-zero post-release issue rate.
- Conducted code reviews and unit testing (80% coverage) to strengthen reliability, deployment confidence, and foster continuous improvement.
- Leveraged Prisma Defender and CodeQL to detect and remediate vulnerabilities in cloud-native deployments, ensuring secure and compliant systems.

Project: Verizon Wireless
Period: June 2022 - July 2024
Role: Java Developer
Responsibilities:

- Contributed to backend development using Spring Boot and REST APIs, creating new endpoints and enhancing existing ones for improved reliability and performance.
- Implemented optimizations across microservices, reducing response times and improving API throughput.
- Resolved SonarQube, Fortify, and BlackDuck vulnerabilities, strengthening code quality, security, and compliance with enterprise standards.
- Collaborated with senior developers to understand and apply best practices in microservice architecture and API design, gaining hands-on exposure to enterprise-scale systems.
- Performed JavaScript development tasks to support frontend integration and improve user-facing functionality.
- Gained valuable experience in agile development workflows, participating in sprint activities and learning collaborative delivery practices.

CERTIFICATE, AWARDS & HONORS

GitHub Copilot (2025)
MongoDB SI Associate (2024)
Microsoft Azure Fundamentals AZ-900 (2022)
Java Programming: Solving Problems with Software from Coursera (2021)
Capgemini Tech Challenge (2021)
Java certification from DotPoint Institute (2019)
Cleared NDA-141 Exam and appeared in SSB-Allahabad (2018)
TCS Star of the Month award
TCS On-the-Spot Award

SKILLS

Work Model	Agile Methodology, Scrum
Other tools	Rally, Kubernetes, Jenkins, Postman, Cloudberry, Openlens, Splunk
Languages	Java 17/21
Frameworks	Spring Boot, Spring Data JPA, Kafka, Junit5
Development Tools	Eclipse, STS, VS Code, IntelliJ IDEA
Database	MySQL
Version Control Tools	GitHub, GitLab
WebServers	Apache Tomcat
Front End	HTML, CSS, JavaScript

INTERESTS

Watching cricket and wrestling
Listening music
Playing console games

PERSONAL INFO

Father's name: Udit Rathod
Birthday: October 25, 2000
Gender: Male
Marital Status: Single
Nationality: Indian

MY ADDRESS

202, Hariom Palace, Sec-C, 8AX, Scheme no 71, Ring Road, Indore - 452009 Madhya Pradesh

LANGUAGES

English, Hindi
